

A Special Edition of FELCO premium pruning shears

FELCO unveils a Special Edition of PREMIUM pruning shears.

FELCO, world leader in pruning shears and pruning tools, launches a Special Edition of PREMIUM pruning shears.

An “all black” finish and leather-covered handles are the hallmarks of the new range of FELCO Premium Special Edition pruning shears. Available in two models, **FELCO 6** and **FELCO 8**, blending craftsmanship and technology, handmade and industrial processes. An outstanding item for passionate users and fans of the brand.

AN EXCEPTIONAL AND HIGH-QUALITY TOOL

The Premium Special Edition range is designed to meet the expectations of FELCO users who wish to have an exceptional tool that combines craftsmanship with some of the most refined material treatments available.

To transform these pruning shears into special editions, the components undergo specific treatments. The emblematic forged aluminium handles are anodized and then sandblasted black, while the blade and counter-blade are chromed black. These treatments not only provide a unique appearance, but also ensure greater resistance and durability to the elements.

PREMIUM MATERIALS

FELCO’s expertise in industrial manufacturing is combined with centuries-old leather craftsmanship. The handles of the Premium Special Edition pruning shears are covered with a delicately fitted black leather sheath. Red stitching visually enhances the curves and recalls the iconic colour of FELCO handles. The softness and unique feel of this natural material provides unparalleled comfort when pruning.

Unique Features

FELCO 6 and FELCO 8:
hand sizes M/ L

High-quality hardened steel blade & counter-blade with black chrome plating, for a smooth cut

High-quality, soft leather handle covers for maximum in hand comfort

Black anodization on sandblasted aluminium handles

Handmade finish and elegant red stitching

All parts can be replaced.
Made in Switzerland with 100% renewable energy.

FROM SWISS INDUSTRIAL PRECISION TO UNIQUE HANDMADE CRAFTSMANSHIP

This meticulous assembly work is carried out with care and dedication in the FELCO workshops. The production of the FELCO Special Edition range involves several specific manufacturing stages, which require both a high level of industrial knowledge and unique craftsmanship.

“With this tool, we wanted to create something exceptional to offer our brand’s loyal customers. The FELCO Premium Special Edition in its uniqueness expresses Swiss “savoir-faire” in an object that can be both functional and iconic” points out Nabil Francis, CEO of FELCO.

LUXURIOUS AND ELEGANT CASE

The tool is delivered in a luxurious case that further enhances its precious character. Even as an exquisitely crafted tool, the FELCO Premium Special Edition pruning shears are nevertheless perfectly usable for their original mission: plants and trees by professionals and amateurs who love the brand.

Products specifications

- Handles in forged aluminium with a lifetime guarantee
- High-quality hardened steel blade & counter-blade, black chrome-plating
- Chrome-plating improves resistance to corrosion
- Chrome-plating reduces friction and therefore effort required to cut branches
- Counter-blade with sap groove
- Blade with wire cutting notch
- Screw-mounted counter-blade for easy replacement
- Locking segment nut for easy adjustment of the cutting head
- Ergonomic, lightweight and sturdy handles for optimum comfort, with sandblasting and black anodic oxidation finishing
- Soft high-quality leather covering for maximum comfort in the hand

Based in Geneveys-sur-Coffrane (canton of Neuchâtel) Switzerland, FELCO SA is a global leader in professional pruning shears and cable cutters. The Swiss company was founded in 1945 by Félix Flisch. Today, still in the hands of the founder's family, it employs 200 people and produces more than one million hand-held tools and 200,000 industrial tools every year, 90% of which are exported to more than 100 countries. The company is particularly committed to sustainable development, both internally and externally.
